From: Steve Yaeger, Program Deputy Director

Subject: Evaluations of Alternatives Against Solution Principles

Attached for the review of your USBR team working on CALFED issues is the initial sets of evaluations against the solution principles for alternatives A through J.

I have also enclosed a copy of the operational concept plan for each alternative to assist you in your review and comment on the evaluation the Program Team has completed on each alternative. In addition, I would like to get your comments on the rationale for each evaluation, which is shown in bold, and the potential revisions shown in the table on page 5 of each writeup.

I would appreciate receiving your comments by May 10 if at all possible so that we can compile them by the next PCT meeting.
